

Job Offer

Journalist/editor (print/online) – Indian market

pv magazine (www.pv-magazine.com), the leading global magazine and web platform covering the solar industry, is looking for English-language journalists and editors to work on the further development of its digital platforms with a focus on the Indian photovoltaic market.

This opportunity involves a fixed-term contract or freelance arrangement.

The global solar industry is fast emerging as one of the key technologies in the fight against global warming and the role with pv magazine offers the opportunity to engage with this growing \$150 billion industry across all levels.

Location: Berlin

Compensation: either on fixed-term contract basis or freelance basis

Qualifications:

- A demonstrated ability to source, research, write and edit relevant solar-industry news in a time-critical environment;
- An affinity to the Indian culture and market
- A clear and concise writing style (AP style);
- An advanced ability to research and write detailed technical or business orientated feature articles – experience in covering business/energy/technology valued;
- Knowledge of online publishing tools and use of social media in a professional news setting;
- The capacity to work as a key member of a global team of correspondents;
- Strong interpersonal skills and the ability to represent pv magazine at solar industry events.
- Legal working status in Germany (not required for freelance candidates)

If you have an interest in clean energy, technology and the environment and have professional experience as a journalist and/or editor, please submit a CV, letter of intent, and links to examples of your work to [editor-jobs\(at\)pv-magazine.com](mailto:editor-jobs(at)pv-magazine.com)
